## CONTENTS

---

1	INTRODUCTION	1
1.1	Starting point and problem formulation	1
1.2	Research objectives	2
1.3	Structure of the work	2
<b>I INTRODUCING INTERLOCKING DIRECTORATES</b>		
2	INTER-CORPORATE NETWORKS IN GERMANY	7
2.1	About Germany Inc.	7
2.1.1	History and roots	7
2.1.2	Recent insights of Germany Inc.	12
2.2	Reasons for network disintegration	14
2.2.1	Corporate governance convergence	14
2.2.2	Shifting business environment	18
3	CORPORATE NETWORKS OF INTERLOCKING DIRECTORATES	25
3.1	Theories about inter-corporate linkages	25
3.1.1	Actor-centered theories	26
3.1.2	System-centered theories	31
3.2	Interlocking in Germany	34
3.2.1	Possible configurations	35
3.2.2	Legal framework in Germany	36
4	DATABASE OF GERMAN INTERLOCKING DIRECTORATES	39
4.1	Sampling	40
4.1.1	Set of companies constantly listed on the DAX and/or MDAX	41
4.1.2	Set of large companies constantly listed by the German Monopolies Commission	41
4.2	Data interpretation approach	42
<b>II FINDING NETWORK PATTERNS</b>		
5	RECONSTITUTION ANALYSIS OF BROKEN TIES	49
5.1	Literature review and hypothesis formulation	49
5.2	Hypothesis test	53
5.2.1	Method	53
5.2.2	Sample	53
5.2.3	Results	54
5.3	Discussion	56

6	INTERLOCKING NETWORK PATTERNS	59
6.1	Literature review and hypothesis formulation	59
6.1.1	Financial control theory	59
6.1.2	Structural network characteristics	60
6.1.3	Performance as an antecedent of network structure	60
6.1.4	Network structure as an antecedent of performance	62
6.2	Hypothesis tests	64
6.2.1	Method	64
6.2.2	Sample and measures	67
6.2.3	Results	69
6.3	Discussion	71
7	RELATIONS BETWEEN SHAREHOLDINGS AND INTERLOCKS	75
7.1	Literature review and hypothesis formulation	75
7.2	Hypothesis tests	76
7.2.1	Method	77
7.2.2	Sample	80
7.2.3	Results	81
7.3	Discussion	82
<b>III ANALYZING PERFORMANCE IMPLICATIONS</b>		
8	SOCIAL NETWORKS AND PERFORMANCE	87
8.1	Basic social network analysis measures	87
8.1.1	Actor measures	87
8.1.2	Network measures	90
8.2	Network positions and performance	91
8.2.1	Centrality measures and performance	91
8.2.2	Network density and performance	93
9	PERFORMANCE IMPLICATIONS OF INTERLOCKS	95
9.1	Information exchanges via corporate boards	95
9.1.1	Information as a resource	95
9.1.2	Interlocks as communication vehicles	96
9.2	Performance implications of interlocks	97
9.2.1	Advantages of interlocking directorates	98
9.2.2	Disadvantages of interlocking directorates	99
9.3	Literature review and hypothesis formulation	100
9.3.1	Structural holes and economic performance	102
9.3.2	Network closure and economic performance	104

9.4	Hypothesis tests	105
9.4.1	Method and measures	105
9.4.2	Sample	108
9.4.3	Results	108
9.5	Discussion	115
10	SUMMARY	117
<b>IV APPENDIX</b>		
A	APPENDIX	121
A.1	Act against Restraints of Competition (GWB)	121
A.2	German Codetermination Act (MitbestG)	122
A.3	German Commercial Code (HGB)	123
A.4	German Corporate Governance Code	124
A.5	German Monopolies Commission	124
	A.5.1 Functions and procedures	124
	A.5.2 The term "value creation"	126
A.6	German Stock Companies Act (AktG)	127
A.7	Information flow networks in complete data set	128
A.8	All companies in data set	128
